[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JULY 31.

EASTERN STATES.

Frightful Steamboat Explosion—Great Loss of Life.

New York, July 30.—The Staten Island ferry-boat *Westfield*, when in the slip at Whitehall and crowded with passengers, exploded her boiler. The concussion was terrific, shattering the forward part of the boat and killing and scalding a great number of persons. The hurricane deck was blown overboard and fell over a large number of persons in the water, who were drowned. The front of the boiler was suddenly blown out, lodging thirty feet distant in the forward part of the boat. The upper cabin was split into a thousand pieces, as an eye witness expressed it. The forward part of the boat was lifted fifty feet into the air, the smoke stack fell and everything was buried in the hold—passengers, chairs, stools, horses, benches and life preservers, dropped into the hold, fronting the huge boiler, which poured out volumes of steam. Many persons were blown overboard. Fathers and mothers had their children blown from their arms. The water for an instant was alive with men, women and children, struggling for life. The aft part of the boat, which escaped the force of the explosion, would have been safe for the uninjured, but the panic-stricken leaped overboard without regard to consequences. Capt. Ullman, of the new street police, seeing the explosion, was promptly on hand and a fire alarm was sounded. The harbor police boat came to the rescue, and gentlemen who were in tow boats at the Battery, helped to save the victims.

As the debris in the fore part of the hold was removed the cries of the half boiled victims were heartrending. Stimulants were given them as they struggled for breath and pit poured upon their burns. As fast as the wounded were recovered they were borne to another ferry boat alongside where they were cared for by the doctors.

Later Particulars.

New York, July 30—Midnight.—The total number known to be killed at this hour reaches thirty-one, of whom only Prof. March Chenoyer of Brooklyn, John J. Book of New York, J. J. Johnson of Brooklyn, Matilda Mollett of New York, Nellie Groomes of Flatbush and George L. Lassel have been identified. Of unknown dead now in the hospital and station-houses awaiting identification are twelve men, six women, and six boys and girls, generally under twelve years. Of the number severely wounded, the names and residences have been ascertained of about seventy. A large number of third class passengers were removed and cared for by friends. None of the officers or employees of the *Westfield* are thus far reported among the sufferers.

...LATER—1:40 A. M.—In Bellevue Hospital at twelve there were twenty-four bodies in coffins and ten on slabs. Since nine o'clock there died in the hospital, Fanny Randall of Sixth avenue, Margaret Carolino——, a child two years old frightfully burned, Christopher Houch and wife, —Climan, Sarah Phillips, a baby, three unknown men and one unknown woman, and Matthew Mahoney. Surgeons of the different hospitals say a majority of those in their charge will die.

New York, July 31—Two A. M.—The most reliable returns of casualties by the disaster give the total of killed at 50, and wounded 120.

Against John Freeland, Captain, and Harry Robinson, engineer, the indignation of the passengers is tremendous, though friends of the latter claim he is not to blame. The boiler was inspected by the United States Boiler Inspector on the 15th June and pronounced safe.

By four o'clock seventy-five persons were received in Centre street hospital. Five died within an hour. Twelve dead bodies have been removed from the boat. Four more were found in the water. Five wounded have died, making twenty, one persons killed nearly outright. Many of those in the water clung to piles until rescued, but others sank before aid could reach them.

WASHINGTON CITY.

Treasury Matters.

WASHINGTON, July 31.—The Secretary of the Treasury has notified the Assistant Treasurer at New York to purchase one million dollars worth of bonds each Wednesday in August, five millions in all, and sell one million in gold on the first, third and fifth Thursdays, and two millions on the second and fourth Thursdays of August, or seven millions in all.

BY ATLANTIC CABLE.

French Affairs.

PARIS, July 30.—Marshals Bazaine and Canrobert, and General Wimpfen are commoned to testify before a committee of the Assembly to investigate the conduct of the late war.

The courts martial for the trial of the Commun ists are convoked for Thursday, August 3d.

The official journal says an interview is arranged to take place in September at Versailles, between Lord Granville, Von Beust and Thiers, when the Eastern question in all its bearings will be considered.

The Minister of War has the Assembly committee on the budget for a supplementary credit of 218,000,000.

PARIS, July 31.—Gambetta has submitted a proposition for the reorganization of the army and civil service. The army plan is supposed to be the work of Faidherbe and Chancey in conjunction and Duc de Aumale and Prince de Joinville. Thiers and McMahon approve of the plans. Some surprise is expressed at the coo peration of Princes with Gambetta and Thiers.

Americans visiting Europe, must bring passports, especially naturalized citizens.

PARIS, July 30.—The election to fill vacancies in the municipal government was held to-day. Twenty candidates of the Parisian Union, and twenty-six who were on the Turbigo list, were elected.

Spanish Affairs.

MADRID, July 29.—Beurrillo, in presenting the new ministerial programme to the Cortes, said there would be no change from the Colonial policy of Serrano.

WEST INDIES.

NEW YORK, July 30.—The steamer *Peril* which sailed yesterday, took one hundred and fifty thousand dollars to pay Bare the second moiety of the lease of Samana. She also took arms for the Dominican Government.

Arrangements have been made with the Jamaica Government for the Pacific Mail Company to continue their trips to that island another year for a subsidy of five thousand dollars.

MEXICO.

The Presidential Election.

CITY OF MEXICO, July 22.—Juarez's prospects for election are decidedly the best, but difficulties are expected on the assembling of Congress which may make Diaz President. Juarez will most certainly oppose Lerdo by force, but not Diaz.

CANADA.

Elections for the Legislature.

TORONTO, July 30.—A letter says elections to the Quebec Legislature resulted in the choice of forty five Ministerials and twenty Opposition.

BY STATE TELEGRAPH.

An Indian Murdered.

ALBANY, Oregon, July 31.—Yesterday morning about 3 o'clock, at the Indian camp in the upper part of town, some Indians, while gambling, got into a row, during which a half civilized Indian named Jim Kirk, owning and living on a ranch near Brownsville, in this county, shot and instantly killed another Indian named Charley. The murderer was caught, and is now held in close confinement in this place.

Quite a sharp thunder shower occurred here night before last.

The St. Paul notaries administer the following oath, at least the Chicago *Times* says they do: "You do solemnly swear that you signed the foregoing instrument of your own free will and record, without equivocation, prevarication, or fear of God, and that you will furnish the notary and subscribing witnesses with two glasses of beer each."

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Explosion at New York.

NEW YORK, July 31.—Coroner Keenan will hold an investigation into the explosion of the steamer *Westfield*, but perhaps not till next week. It is intended that it shall be searching and thorough. The jury will be composed of business men or practical mechanics who will be able to render an intelligent verdict according to evidence and place the blame for the accident where it properly belongs. The engineer of the *Westfield* says that when she steamed out from the island she had four cocks of water, and from the fact that only a slight report accompanied the explosion he thinks there could have been but a small head of steam on.

Mr. Stevens, Secretary of the Staten Island Ferry Company, says there was a safety valve attached to the boiler. The collector asserts positively that there would not have been over 250 persons on board the boat. If one half the reports are true, the Government Inspector should be indicted by the Grand Jury. The engineer apprehended explosion, for he says that he looked at the patch on the cylinder on Thursday, and a piece of the cylinder which was blown out shows that the iron had been beaten out around the rivets until it was as thin as four sheets of paper.

Grappling for dead bodies has been up all night and is still going on. Shortly after midnight Warden Brennan reported over forty dead bodies in Bellevue Hospital. About sixty are most horribly scalded and bruised, many of whom will doubtless die. Over a thousand persons visited the hospital after dark. The character of the explosion was such as to tear away and entirely ruin half of the vessel. Nothing is to be seen but ons mass of iron, hats, timbers, parasols, umbrellas and pieces of torn clothing of every description. Windows and doors of the boat have been shattered and torn from their hinges. The company estimate the damage to vessel at $12,000. The boat was known as an extra boat and is used Sundays and holidays or at hours when the tide of travel sets strong to Staten Island. She was about to start on her first trip yesterday, and was two or three minutes behind time, when her boiler exploded. There were 200 or 250 passengers aboard at the time of accident, according to the statement of officers and tickets taken. Most of the passengers had congregated almost directly over the boiler in order to catch the breeze blowing from the south.

WASHINGTON CITY.

Theory about the Explosion.

WASHINGTON, July 30.—Secretary Boutwell thinks regarding the *Westfield* accident that the Inspector of Steamboats must have been at fault. It is understood that Supervising Inspector Belknap will at once be ordered to make a rigid examination into the condition of the boat and report without delay to Secretary Boutwell, and take precaution against further loss of life, to make inspection of all boilers on the Kerry line.

Regulations for Commerce.

WASHINGTON, July 31.—It has come to the knowledge of the Secretary of the Treasury that an extensive practice has been going on along the Canadian frontier by persons engaged in shipping foreign goods on foreign vessels to be reshipped to ports in the United States on the frontier. The custom is in violation of law and subjects vessels engaged to forfeiture of their cargo and payment of tonnage duty of fifty cents per ton on her admeasurement. Collectors, however, are in doubt respecting the penalty, and in many cases in order to collect tonnage duty have refused to admit goods, taking security for the payment of tonnage duty. Secretary Boutwell has therefore issued instructions that the penal tonnage imposed on the vessel is not a charge on goods apparently liable to forfeiture, in so far as to require prepayment of that tax before entry of goods.

SAN FRANCISCO, July 31.—The French ship *Rimac* cleared for Valparaiso to-day with 1,084,000 feet of lumber.

A whale of the California grey species, 90 feet in length, has been added to the attractions of the ocean beach. It can be seen from the Cliff House and smelled some miles farther.

The *John L. Stephens* sails for Portland to-morrow instead of Wednesday, as at first announced.

Charley Duane has sued Francis Buckley and John Sullivan for $50,000 damages. He was indicted for perjury, alleged to have been committed in a land suit at their instance, and acquitted upon trial.

It is reported that Government will rebuild the Quartermaster's storehouse on Yerba Buena Island, burned some months since.

Mrs. Latham, who was abandoned by her husband, and ten days after confinement found, utterly helpless, prostrated with fever, with her starving children around her and being sent to the county hospital was three times refused admission by Dr. Bolan, died to-day. It is believed that had she been properly cared for when first found, her life could have been saved.

The New York *Dramatic Journal* states that Joseph Proctor, lessee of the Metropolitan Theater here, is the wealthiest actor in America, not excepting Edwin Forrest and John E. Owens. Members of his new company will consequently have a certainty of their salaries.

Erick Pomeroy and S. S. Cox stump to-morrow night with the Governor and others in Woodland.

Elie Williams, a workman in Meyer Sabry's lead works at Black Point, has sued Selby and Peter Naylor, proprietors of the works, for $20,000 damages for injury to his health, caused by, as he alleges, a defective construction of the works.

The Board of Supervisors this evening extended for one year the time for the commencement of the wire tramway or street railroad for ascending Clay street hill.

In the matter of the investigation of the alleged abuses in the Sheriff's office and the jail, the Committee this evening presented a majority and minority report. The majority claim that the investigation proves that illegal fees have been collected, while the minority report acquits Sheriff White of any blame. The latter will probably be adopted.

INTERIOR CALIFORNIA DISPATCHES.

SAN JOSE, Cal., July 31.—Deputy Sheriff De-Lacy yesterday returned from Stockton with a man named Hess, who obtained a horse and buggy from Bethel's Stable and sold it to a farmer named Treadway.

Yesterday some boys, while playing near Mr. Kirk's ranch, in the willows, came upon a small iron safe partially buried in the ground. After it was the property of Donald McKenzie, iron foundry, stolen some three years ago.

The case of the boy in Santa Clara, who had the top of his skull blown off, leaving th brain exposed, is a remarkable one. The physicians intend substituting a silver fron ispiece, and believe he will recover.

AUBURN, Cal., July 31.—Newton Booth is addressing the largest local meeting ever held in Placer county. Republicans are in attendance from all portions of the county and adjacent points in El Dorado county. A large delegation came from Gold Run and Dutch Flat. A salvo of artillery greeted the arrival of Booth and Eastman.

STOCKTON, July 31.—A shooting affray occurred at the Grand Hotel to-night, a few minutes after 8 o'clock. Mrs. N. J. Saviers arrived to-day from Carson, Nev., and took rooms at the house. She afterwards ascertained that her husband, M. M. Saviers, was boarding at the Grand Hotel, and living on intimate terms with a woman. She proceeded to the room of the woman and commenced shooting with a pistol, wounding her in three places, one bullet taking effect in the breast, one in the leg and the other in the arm. Mrs. Saviers was immediately arrested and lodged in jail, accompanied by her husband. The wounded woman is not expected to survive.

The Republicans are holding a mass meeting to-night and are being addressed by T. J. Phelps, and will be followed by Mr. J. E. Swift. Many ladies are present and much attention is paid to the speakers.

SACRAMENTO, July 31.—The Board of Examiners counted the funds in the State Treasury to day, amounting to $620,222, of which $68,105 are legal tender notes.

W. K. Meadenhall, who arrived here a month ago to make investigations concerning affairs in the U. S. Land and Register's offices in California, departed hence for Washington on Saturday. It is said he received some affidavits which may materially curtail the tenure of office of the Land Agent and Register of this district.

THE TAMMANY THIEVES.

The New York *Times* of the 29th July has a three-column article which furnishes a startling exposure of some of the great thieving operations of the Tammany gang. An editorial containing a *resume* of the longer article is also given, which we copy below. Readers will please remember that this thieving ring is the head of the Democratic party of the United States. The *Times* says:

We now proceed to fulfill our promise to bring home to the Tammany Ring, and more particularly to Connolly and Mayor Hall, a clear case of *swindling*. That is the proper word to describe the transaction, and is indeed the only word, and therefore we have been hesitating in using it. If Mayor Hall and Controller Connolly object to being branded as thieves and swindlers, as we once more br

TUESDAY MORNING, AUGUST 1, 1871.

Tammany at Bay.

At last there seems to be a fair prospect of routing the infamous, thieving Tammany gang, which controls the State of New York and grasps for the control of the United States. How to rout it has now become a question of national importance and magnitude. It is really *the* question before the country. Thanks to the fearless vigor of the Republican press of New York, ably led by the *Times*, Tammany is being assailed in its stronghold; its gigantic swindles are being exposed and the gang is arraigned before the whole American people. For three years there has been no public exhibit of the finances of New York city. Every year millions are raised by taxation, but the thieving gang refuse to publish any statement showing what they do with the money. They have, however, published a statement of the city debt, which, by their own showing they have increased during the last three years by more than fifty millions of dollars! The press by some means has obtained copies of their accounts from their secret books, and is now publishing them. A sample may be seen in the article from the New York *Times* of the 20th July, which we copy to-day. Of course these exposures are producing a prodigious sensation. The Democratic officials are pronounced in plain language to be swindlers and thieves, and statements are submitted to prove it. The extent and amount of these thefts are prodigious. Overwhelmed by the exposure the ring strike out blindly in an attempt to make a defense. According to reports by telegraph they threaten to publish statements showing that they have used a part of the immense sums they have stolen to bribe Republican members of the Legislature to support their thieving schemes. This would, indeed, be a singular method of defense. If they bribe Legislatures, so much the greater need of overthrowing their corrupt power. It may be that they have bribed some Republican members. Undoubtedly they did bribe *one*—O. S. Winn—last winter. But can they suppose that in exposing these transactions they exculpate themselves? It is greatly to be hoped, however, that they will let all these infamous secrets out.

The New York *Herald* has usually been a supporter of Tammany, and its morals are of an easy order, yet even the *Herald* sees that the country will not endure Tammany rule, and that the Democratic party, having Tammany at its head, will be again defeated and overthrown. "The Republicans," says the *Herald*, "intend to open a general fire upon Tammany Hall as the head and front of the Democratic party." Certainly, for no one doubts that this gang is the "head and front" of that party. Tammany by its immense robberies, by fraudulent voting and by corruptly using millions of public money, has succeeded up to this time in holding the State of New York for the Democratic party. Without that State the Democratic party would have no foothold in the country, and could not pretend to compete in a Presidential election. Tammany fully controls the party, shapes its policy and furnishes the candidates. And the party relies mainly on the efforts of Tammany to foist into power at the National Capitol.

These facts and considerations furnish the reasons why the suppression of the Tammany gang, involving also the utter overthrow of the Democratic party, is a question of national importance and concern. To allow the Democratic party to triumph is to establish the Tammany thieves at Washington as they are established at New York, but with their opportunities for robbery increased by just so much as the revenues of the United States are larger than those of the city and State of New York. Further, this gang has shown by trampling to the New York mob that it would surrender American liberty to confirm a powerful class of its voters, and erect a despotism in America founded on mob rule. If the Republican press now does its whole duty in holding up to public execration this gang and the party which is led by it, there will be no fear of the result of the elections in 1871 and 1872.

Go Across for News.

The following from the New York *Herald* of the 19th July is a sample of the food used to feed those who are given up to sentimental views on the Indian question:

The Indians of Oregon and Nevada are living on roots because the Government agent refuses to feed them, and they are consequently nearly starving. The result will be war, and a great popular outcry against the bloodthirsty redskins; but they are not bloodthirsty so much as they are hungry.

We wonder where the New York *Herald* could have obtained this information? Of course everybody here knows that the statement that the agents are refusing to care for the Indians is unfounded. But the statement will serve to make some people at the East think that the Indians are grossly abused and outraged, and on this supposition they will charge the next outbreak to the bad conduct of the "unjust" and "bloodthirsty" whites.

The Roseburg *Ensign* has a long article on the swindling swamp land act passed by the recent Legislature. It says that the grabbers who are in the "ring" which has its headquarters at Salem, pay no attention to the rights of settlers, and that "the only hope of the settlers as well as those desiring a fair distribution of the swamp land, is in the action of the Government in opposing or rejecting the State selections." Much, as we have said heretofore, depends on the action of the Surveyor General, and we believe that officer will do his duty and help defeat the schemes of the grabbers and the ring.

It is estimated by a Douglas county paper that the wool product of that county this year has yielded $120,000 in gold coin. As there are many sheep owners in the county this money has been pretty widely distributed. The paper from which we derive these statements proceeds to show the people of Douglas county what interest they have in maintaining a policy which protects their products and their industry against foreign competition, and reminds them that the Democratic party would not do this for them and for the country.

Among the facts made use of against Gov. Haight, in the canvass in California is that he signed a bill giving to the Catholics in San Francisco, a portion of the common school fund. They who oppose appropriations out of the public treasury for sectarian purposes, are making this matter quite troublesome to the Governor.

At Big Bar on Rogue river an extensive mining enterprise is in progress. About half the river has been turned into the works, and it is believed that large pay will be obtained. This is probably the most important mining enterprise ever undertaken in Southern Oregon.

YAQUINA BAY.

ELK CITY, Benton Co., July 28, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: Since my last letter we have been favored by a light, but steady and refreshing rain, which will benefit our garden spots wonderfully. Of course the owners of crops of hay growl a little, but I have not seen that any material damage was done where the grass was up yet untouched, the rain not being heavy enough to beat it down much; but of course somebody must growl. "Fortuna multis dat nimis; satis, nulli," is a true proverb, and those who have plenty and lose a little are the most apt to murmur.

I am sorry to have to record a fatal accident which occurred here a few days since. Chas. Abby, a fine lad, only thirteen years of age, eldest son of E. A. Abby, Esq., while stepping into a skiff in front of his father's house, accidentally discharged a gun he was carrying and lodged the whole charge in his side. His mother and sister, hearing his cries, were almost the first to reach the spot, and assisted in getting him out of the water and up the steps. Dr. White and Mr. M. Simpson, who witnessed the accident from the opposite side of the creek, were promptly on hand, but the unfortunate boy was speechless and died in a few minutes. The greatest sympathy is felt for the family, and the funeral was attended by all who could manage to be up in time.

An affray took place on Tuesday, a few miles below here, in which a man by the name of Rowland Hilton was desperately cut by a William Hiatt. Both men, it seems, were intoxicated, and some Indians were the only witnesses of the occurrence. The steamer *Pioneer* came up shortly after, and the wounded man and his assailant were put on board and conveyed to Newport. By the last account I had Hilton was a little better, but I did not learn whether any legal steps had been taken with regard to Hiatt.

I dare say it may be fresh in the recollection of your readers about several farm houses on the Luckiamute having been plundered, during the absence of the owners, last fourth of July. I am glad to say that the marauders have been tracked and they turn out to be Messrs. "Lo." The beauty of letting them come and go, as they please, is thus plainly shown forth. Mr. Siwash knows well that on "pretty July" (as he styles our national birthday) he will find lots of country houses void of inmates, and you can bet your last "send" he is not going to throw such a chance away. Not content with stealing, in this instance they broke, or otherwise damaged what they were unable to carry away. Some articles of clothing were found at the beach in the possession of an Indian rejoicing in the name of "Penitentiary Charlie."

Visitors are coming in, four, two hack loads arriving here on Tuesday, to take the boat for Newport. They seemed to enjoy their trip greatly. BEAVER.

CALIFORNIA ITEMS.

In San Francisco there are 28,162 white school children.

Some of the columns for the new mint at San Francisco weigh thirty-seven tons each.

California papers are publishing portraits of the candidates for Governor, with sketches of their lives.

California contains a larger number of foreigners, proportionally, than any other State in the Union. The census shows 336,393 natives and 209,839 foreign born.

The *Yreka Union* learns that there is a great deal of immigration to the valley of Lost river and the Klamath lakes at present, that ranches are in active demand.

It is claimed by the Roseburg *Plaindealer* that the Democrats are managing the affairs of Douglas county much more economically than the Republicans did. This assumption is exploded by the *Ensign*, which shows that the county expenditures never exceeded those of the present year except on two occasions,—once in 1867 when it cost the county several thousand dollars on account of a Democratic riot at a country dance, and again in 1866 when a new court house was erected at a cost of $5,500.

JOHN GERMANN is out in an address in support of the Republican ticket.

REWARDABLE CURE OF MRS. HOOVER.

THE DALLES, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORTEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a large bone swelling grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Life Wood Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the bone HAS DISAPPEARED and I use my limbs and arm far better than I have been for years.

THE GREAT WORLD TONIC!

PLANTATION BITTERS

This Wonderful Vegetable Restorative is prepared from pure St. Croix Rum and Calisaya Bark, known the world over as possessing wonderful tonic properties. As a Tonic and Cordial for the aged and languid it has no equal.

PLANTATION BITTERS

Just the thing for the morning lassitude and depression of spirits caused by late hours and what is called fashionable dissipation.

PLANTATION BITTERS

Of all the appliances to the medical profession, and the impulse which it imparts to the digestive functions is infallible, and the impulse which it soon puts Dyspepsia to flight.

PLANTATION BITTERS

It is the foremost remedy of the age. The specific of every species of debility, general or local, constitutional or casual.

PLANTATION BITTERS

A wine glassful taken half an hour before breakfast, dinner or supper, quickens the flow of the gastric juice, and thereby promotes digestion.

PLANTATION BITTERS

Dyspeptics are disposed of three good square meals per day, with a good relish, have no pains and have gained sixteen pounds in eight weeks; sleep well and consider myself a healthy man."

PLANTATION BITTERS

Taken moderately, three times a day, will give you strength, health and a cheerful and contented disposition.

PLANTATION BITTERS

Will give rest and quiet to those who cannot sleep from unsatisfactory condition of their affairs.

PLANTATION BITTERS

Will restore tone and vigor—just the thing for mothers nursing.

PLANTATION BITTERS

"Well, they cured me of every distressing symptom in ten weeks and you had better follow my example.

PLANTATION BITTERS

If you want pure, rich and electrical blood—blood that gives tone to the system, the "rose tint of health" to the cheek.—Try it.

PLANTATION BITTERS

Thousands of families in Ohio and Mississippi valley, and on the borders of the southern rivers and swamps, will not be without one.

PLANTATION BITTERS

Which is the cheapest? A dollar bottle of Plantation Bitters, or a physician at two dollars a visit?

PLANTATION BITTERS

"The value of such an antidote cannot be expressed in words."

PLANTATION BITTERS

Will restore the vital energy, regulate digestion and correct the sluggish circulation of the blood.

PLANTATION BITTERS

Is an unequalled invigorating cordial for the aged as well as for the young.

PLANTATION BITTERS

Is unsurpassed for weak and delicate persons, in their requiring a gentle stimulant.

PLANTATION BITTERS

"I began taking your Bitters the next day, and am perfectly happy to tell you that they have completely restored my health, strength and cheerfulness."

PLANTATION BITTERS

"I find nothing so good for headache and languor to which my daughters are at times subject. It gives them splendid appetite, and they eat like pigs."

PLANTATION BITTERS

"By advice of my physician, soon after my baby was born I commenced using them, and they have done me so much good."

PLANTATION BITTERS

TUESDAY MORNING, AUGUST 1, 1871.

CITY.

STEAMER OF THE UMPQUA.—Major Roberts, in charge of the harbor and river improvements in this district, under the appropriations of Congress, has caused a survey to be made of the Umpqua river, for the improvement of which there is an appropriation of $22,000. The engineer sent to do that work reached home on Friday last. His observations lead him to conclude that a practicable channel can be made with the appropriations as high up as Roseburg, for vessels drawing two feet of water, at seasons when the river is five feet above low water mark. During the low water of the summer months the navigation is totally impracticable without a series of locks, as the water runs, in many places, only through deep crevices in the rocks. These are frequent places where the bed-rock of the river has been worn by the action of water and sand boulders into a sort of irregular honeycomb, through the holes of which the principal part of the river runs at low water. At five feet above low water mark, all this rock will be covered of sufficient depth enough for steamers to pass over, and with the removal of some obstructions it is believed that a navigable channel of thirty feet in width can be made as high up as Roseburg.

THEATRICAL PERSONAL.—A letter from F. M. Bates, dated July 26th, and received by steamer *Oriflamme*, informs us that he and Mrs. Bates were still in San Francisco, but were to start on Saturday the 29th for Los Angeles. Mrs. Bates and Mr. Bates' engagement of two weeks at the Metropolitan Theater. They expect to stay at Los Angeles two weeks and then return to San Francisco by way of Portland, Mr. Bates says: "We often speak of Portland and the people we left there; and I assure you, for my part, I had rather live in that pleasant city, hard as I found the work, than in any place on the Pacific coast." Miss Lizzie Inglis had arrived at San Francisco, well, and was looking for an engagement.

COMMERCIAL REPORTS.—To supply a long existing want the proprietor of this paper has resolved to furnish a *daily* report of the financial and commercial affairs of this city, embracing all matters of information attainable, not only in regard to local business affairs, but similar matters and reports with which the city is connected by commercial ties. A gentleman of considerable experience in this line of newspaper writing, has been engaged for this department, and hereafter we hope to be able to give, not only the exact selling prices for every article in our price list, but an accurate resume of the business transactions of each day. We invite the special attention of both city and country readers to that department of our paper.

BRUIN'S PET BEAR.—Mr. Thos. Mountain has a pet Sitka bear, which usually manifests the most possible temper; but bears cannot be always in a heavenly mood any more than can human men and women. And so it fell out, last Saturday evening, that the bear got into an incomfortability of temper, with some dogs, and Mr. Mountain undertaking to quell the row and chastise the bear, was turned upon by the bear and severely mauled in the leg. At this juncture the dogs fell in upon the bear, and thus saved Mr. M. from what might have been a very serious damage. So, it seems, it will not do to put our trust in bears any more than in princes.

JUDICIAL ACT.—We understand that the police yesterday found a cow with an ax plunged into its side and left hanging by the blade, the wound bleeding profusely. Some person probably found the brute indulging in a predatory excursion through his garden, and either threw the ax or struck her with it, the cow escaping and carrying the weapon. The debility of cows in the city is enough to provoke a saint, to say nothing of the people who are not saints, and the hurling of an ax at one of them might be excusable, almost; but to leave such a weapon sticking in the wound is simply brutal.

THE "A. HAYWARD."—The O. S. N. Co.'s new steamer, the *A. Hayward*, was towed up to the company's wharf yesterday afternoon, where she shipped her boiler, and was then taken back to the boneyard. No one can realize her length, height and light till he sees her as she was yesterday, alongside the other boats. She dwarfs all of them. The *Okanagan* and *Fannie Troupe* appear very small in comparison. Mr. Gates, the company's Chief Engineer, will commence at once to put up the machinery of the *Hayward*, and expects to have her in readiness to run about the first week in September.

THE BARK ALDER BESSE.—Messrs. J. McCraken & Co. have received a letter from Captain Tinney, dated July 8th, Newport, Wales, in which he states he was to sail on that day for Portland, Oregon, in the new American bark Alder Besse, carrying 1,240 tons railway iron. Capt. Tinney writes: "She is well adapted to carry wheat, as she has plenty of ventilators, and will carry 40 per cent more for wheat or any valuable cargo." Captain Besse authorizes Messrs. McCraken & Co. to charter her for return cargo of wheat for the United Kingdom.

A NEW BRIDGE.—The new bridge on the line of Fourth street, East Portland, is to be, if not a "high level," a bridge of height. The first piles are to be laid on piles, twenty-nine feet high, and on top of these are to be raised bents twenty-three feet high, making the bridge fifty-two feet high from the water in the gulch. The bridge floor will then be brought up to within five feet of the level of the high banks at either end. It is enough to make one dizzy to think of it.

BOYS OF FORTUNE.—The Board of the Fire Wardens held a meeting at the Police Court room last evening, all the Foremen present. It was resolved by an unanimous vote that the several companies shall unite in an annual parade of the Fire Department, on the first Monday in September next. The Board then adjourned to Wednesday, August 9th.

WHAT RUMOR SAYS.—There is a rumor that the *Herald* is to have a new editor in a short time. If this is expedient to enable that paper to take the back track on the "new departure" as "apocatastasis," otherwise called "crawfishing," or progress backwards, seems absolutely necessary to bring that paper into harmony with Whitney in Oregon.

SCRIMMAGE OF SAILORS.—We are informed that eleven sailors belonging to the bark *Skiddaw*, skylarked Sunday night, leaving not only the vessel but the balances of pay due. The latter consideration may be the inducement under which some of them may return when the shore gales of adversity come on to blow.

CATHOLIC CHURCH BUILDING ASSOCIATION.—At a meeting of members of the Catholic Church, held in this city on Sunday, it was decided to undertake the building of a new church, and a Building Association was organized. We learn that the contributions already pledged aggregate a handsome sum.

TOOK THE VEIL.—A Miss Kelly took the black veil at the chapel of the Sisters of the Most Holy Names in this city, yesterday, the rites being performed by the Rev. F. N. Blanchet, assisted by Father Grassi and others. The young lady, lost to the world, takes the name of Sister Mary Rose of Lima.

DESTRUCTION OF PARK TREES.—During Sunday night, a dozen or more of the ornamental trees planted on the Park blocks, at the northern end of the city, were broken down by predatory cows. The only pity about the matter is that the trees were not the property of the cow-owners.

MORE INDIANS CAGED.—Mr. O. A. Brown came down from Oregon City yesterday morning, having gone up there the day before to capture some stray Indians. He put two of them in jail for security till the time shall arrive for a general clambake.

AMUSEMENTS.

GRAND BALL.—A ball is announced to take place at the Washington Guard's Armory on Thursday evening, the 10th inst. Tickets may be obtained of either of the following named gentlemen, who constitute the Committee of Arrangements: Capt. C. S. Mills, Alex. Campbell, E. J. Jeffries, Wm. Zimmerman, J. M. Hill.

RACES TO DAY.—There will be an interesting trotting match at the White House track at 3 o'clock this afternoon. The race is to be mile heats, best 2 in 3, for a purse of $75. J. Welsh names bay gelding "Archie;" C. Bacon, sorrel mare "Fanny Fern;" and B. B. Acker, brown gelding "Brown Dick."

LOSS OF THE *ILLIMANI*.

PARTICULARS OF THE WRECK—THE RESCUE OF THE CREW.

We are permitted to use the following copies of letters, one from the Port Stanley agent of the Liverpool Underwriters' Association, and the other from the 2d officer of the *Illimani*, giving accounts of the wreck of that vessel, and the subsequent experience of the crew:

PORT STANLEY, 13th April, 1871.

Illimani.—The British barque *Illimani*, of Liverpool, William J. Watts, master, was lost on the 1st April, 1871, about 3:30 A. M., about four miles to the N. W. of St. Johns, Point Staten Island, bound to Portland, Oregon, with a general cargo. She struck on an unknown sunken rock, bilged and went down in deep water. All hands saved. They were nine days in an open boat, when they were picked up by the North German barque *Titan*, Witt, master, and brought to this port. The Captain, wife, and part of the crew will leave to-day for Queenstown in the barque *Bertha*. (Signed) E. M. DEAN & SON,

Agent for London Underwriters' Association.

BARQUE HAMILTON, Falmouth, July 1st, '71.

TO THE AGENT OF LLOYD'S, FALMOUTH—SIR: I have to inform you of the loss of the Liverpool bark *Illimani*, which took place on the 1st of April, on a reef off Staten Island, distant about two miles. The ship struck about 4:45 A. M., and we were compelled to leave the ship instantly—not being able to save anything but 15 barrels of bread, which was completely saturated with water owing to the life-boat filling several times with water. We pulled around the island in search of a place of refuge, and took shelter in a small cove, where we remained three days, and then pulled around the island to where the ship struck, the time occupying nine days. We suffered much from exposure to the cold, and want of food. On the ninth day we saw a vessel seaward and pulled toward her. She proved to be the German bark *Libra*, from Montevideo. We were taken on board, 16 in all, including the Captain's wife. The ship then shaped her course for Stanley, Falkland Islands, where we arrived on the 12th, and were supplied with clothing, and the crew sent home in the *Hamilton* and *Bertha*—6 in the *Hamilton*, 5 in the *Bertha*, including the Captain and his wife—the remaining 5 stopping on the island until such time as ships would call in to take them home. When the ship struck the weather was fine, with a moderate breeze, and haze hanging on the land. I am, sir,

Yours faithfully,

(Signed,) ROBERT HEWITT,

2d Officer of the late bark *Illimani*.

Science Advances

As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion, unprincipled parties endeavor to replenish their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since, mercury, in the disguise of pills, powders, etc., was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length Hostetter's Stomach Bitters made its advent, and an entire new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged, and mineral poisons commenced to sink into that obscurity to which an enlightened age has consigned them. There have been many spurious bitters palmed upon the community, which, after trial, have been found perfectly worthless, while Hostetter's has proved a blessing to thousands, who owe to it their restoration to health.

For many years we have watched the steady progress of Hostetter's Stomach Bitters in public estimation, and its beneficent effects as a cure for all complaints arising from the stomach of a morbid nature, and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietors have made the purest preparation, after years of careful study and sifting, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only preparation of the kind that is reliable in all cases, and it therefore demands the attention of the afflicted.

Agents for the Sale of Blocks and Lots in

HOLLADAY'S ADDITION

TO

East Portland!

TO OUR PATRONS AND THE PUBLIC GENerally desiring to make SAFE and RELIABLE Investments in Real Property, we look upon at this time to call your attention to the DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, for the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what is

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE.

Aside from all the Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses, also, Street Improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—10 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife, to the United States, Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. PERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

Commerce.

PORTLAND, Tuesday, August 1, 1871.

Gold in New York, 112¼; currency, buying, 89¼ selling, 90; coin exchange on San Francisco, par; currency exchange on San Francisco, 1¼ per cent. premium; exchange on New York, ½ per cent. premium; telegraphic transfers on New York, 1¼@1½ per cent. premium.

A. B. Meacham, Superintendent Indian affairs in Oregon, advertises for Indian supplies—proposals to be received up to noon of the 20th of August.

The *Barroncota*, of 610 tons, loaded with assorted merchandize, consigned to Jansen & Rhodes, sailed from Liverpool July 4th.

Messrs. Jansen & Rhodes intend having another vessel on the berth to sail from Liverpool on or about the 1st of September.

The *Jane A. Falkenburg* is loading at Honolulu for Allen & Lewis, of this place.

Bk *Glendell*, Crockett, Captain, has been chartered by a party in San Francisco to proceed to Honolulu to load for that port.

Am. bk *Alden Besse*, with 1,240 tons railroad iron, sailed from Newport, Wales, July 8th, 200 tons about the 1st of December. Steamer *Oriflamme*, Capt. Floyd, from San Francisco, arrived yesterday evening.

Hamilt, Ryderdow & Co., made two trial shipments of flour to England, from which they have just received advices. One shipment arrived in excellent condition, and the other, owing, probably, to being unfavorably placed in the vessel, was slightly scarred. The advices further state: "The flour was of excellent quality and brought the highest market rulings." The result of the experiment has been to demonstrate that shipments of flour as a rule, to the United Kingdom, cannot be made with profit to shippers, as prices obtained are unfavorable. The superiority of Oregon flour over California flour is thus totally acknowledged by the San Francisco *Commercial Herald of July 25th*. "Our millers do not like to see the Oregon people successfully competing for their legitimate trade, and measures to check the same are being taken which will, doubtless, effect a serious change in this regard, improved patent machinery being brought into play, thereby reducing the cost of the same. While California millers are adding improvements, ours are not idle, and with our great advantages, they will find it impossible to compete successfully with Oregon. All our large mills are run by water, whereas in San Francisco they run by steam. Oregon wheat is superior in quality to California wheat and can be purchased for less, thus giving us a superior quality of flour at lower rates."

The favorable weather for the past few days for growing crops causes many heads of late sown grain, which, two weeks ago, were considered nearly if not a total failure, extensive and unlooked for yields, the yield with us as large as any previous year. Reports from Yamhill and Polk counties state that fall wheat appears to be very full with oats and blue pod. The late sown spring wheat does not appear so full, but owing to the lateness of sending the straw will be short, although the yield is filling out well. At this writing, under this favorable state of the weather, we are safe in saying that the wheat yield has been increased from 25 to 30% per acre over last year, while the yield of oats is at least from 75 to 100 per cent. greater. Farmers commenced harvesting their fall wheat last Monday, July 24th, but owing to the lateness of spring wheat, it is hardly likely they will be through harvesting both fall and spring wheat before the middle of September. Buyers are offering in the country 93@95c per bushel, according to cost of freight to market for new wheat.

The chinch bug has made its appearance in and about Colusa county, California. They came too late to damage the wheat crop this year, but the crop next year may suffer largely. These bugs prove very destructive to the crops in portions of Missouri and Illinois.

The low price of flour ruling in the San Francisco market has stimulated increased shipment to Chile. The telegraph informs us that as great was the demand for shipping the steamers, although not advertised to sail before to-day, had to refuse freight even at advanced rates, nearly a week ago, to ship on deck.

William Blain & Sons *Liverpool Corn Market Report of July 7*, gives the estimated wheat on hand in Liverpool, June 30, 1871, at 433,670 quarters; June 30, 1870, at 477,031 quarters, showing stocks on hand this year to be 120,465 quarters less than last year, which has large difference; but at the same time we must take into consideration that many vessels loaded with wheat to arrive, had not at that date arrived; but were due.

MERCHANTS' EXCHANGE REPORT.

Bags and Bagging—Force part of the season a combination was formed in San Francisco to sustain prices, and to be for do so one-third of the stock on hand was withdrawn from market. Three weeks ago the combination was broken and prices receded. We learn that a private telegram was received on Friday, stating prices had again advanced in the San Francisco market, indicating another combination. Merchants will be sold in this market this year than heretofore, owing to the fact that farmers will sack their grain instead of hauling it in bulk. One firm reports sending to the country within the past ten days 150,000 bags standard size. Bags, standard size, 13@14c.

Coffee—75 packs, from 16¼@17½c.

Oils—100 cases Chilon nut, private brand.

Rice—100 mats China, 7¼@8c.

Spices—New York dates of July 15 report a continued firmness and no demand, owing to receipt of news of total destruction, by a tornado, of the entire crop upon the island where principally grown.

Soap—100 boxes W. Irving & Co.'s at current rates.

Sugar—50 bbls refined at 15c; 100 half-bbls Island, 9½@12½c.

Woolen Goods—There still continues an active trade in Oregon fabrics, for, notwithstanding prices have been advanced, still they are not by ten per cent. as high as California manufactured woolen goods.

Flour—No sales of any consequence to report further than for local wants. We report sales to day of 100 bbls extra at $10.

Wheat—Millers and others are purchasing to the inferior at from 80@85c per bushel.

Bran—250 sacks at $25 per ton.

Hay—65 tons at $20 per ton.

Middlings—250 sacks at $40 per ton.

Oats—200 sacks at 65c per bushel.
